

# **Safety, Health, Environment and Community (SHEC) Management Policy**

**Our SHEC Management Vision:**  
*Safe and Healthy life to Everyone, Everywhere!*  
*Beneficial to our Environment and the Community!*

**Hanwha Global is committed to creating a sustainable future through the establishment, implementation, and continuous effort to improve our SHEC management policy.**

**1. Make safety, health, environment our priority**

Ensure that the safety, health, and the environment of our employees, contractors, customers, visitors, and communities always come first and will not undertake a task unless its safety is ensured.

**2. Comply with the law and establish a preemptive and preventive safety culture**

For all organizational activities including production, trade, research and construction will perform in law and establish a preemptive and preventive safety culture

**3. Minimize pollutant and allows low carbon, green growth**

Minimize greenhouse gas emissions and pollutants by using resources and energy efficiently and use eco-friendly alternative energy etc.

**4. Secure SHEC capability and strengthen communication/participation**

Ensure all our employees have the necessary capabilities for SHEC management and actively promotes two-way communication as well as voluntary participation

**5. Achieve social responsibility and ensure transparency**

Make our SHEC Management performance public and strive to continually improve our SHEC management policy
